

## 2<sup>nd</sup> community day

On 11 September 2011, one year after the first visit, a group of staff from esofflow re-visited the Thuy An Rehabilitation Centre for the Disabled children, located in Ba Vi some 55 km outside of Hanoi.

The centre cares for more than 200 children in age from 6 to 16 years by providing rehabilitation treatments and providing vocational training.

Staff of esofflow made individual contributions - both in-kind and in cash which allowed for preparing special gifts and toys for the centre's children. During the visit various games were organized.
