

Esoffflow organizes its first Community Day

Esoffflow cemented its strong focus on Corporate Social Responsibility (CSR) when it organized its first Community Day on 18th September 2010. The Community Day was organized in cooperation with another Danish/Vietnamese IT Joint Venture - Netimplementers.

Target for this charity event was the Thuy An Rehabilitation Centre for the Disabled children, located in Ba Vi some 55 km from Hanoi.

All staff made contributions - both in-kind and in cash which allowed for preparing special gifts and toys for the centre's children.

The visit started with a musical show put on by the centre's children. Songs and dances were performed with the Full Moon theme. Delight and happiness were clearly shown on the faces of the kids when the participants delivered gifts and toys to them. The participants also helped to give a hand during the cleaning up routine.

The centre management and staff expressed their appreciation of the visit by the delegation from Hanoi. "It is always something special for the children when we have visitors from outside, and it is special at this time of the year, when the kids celebrate the Full Moon Festival" said Mr. Nguyen Ngoc De, Vice Director of the centre.

The Thuy An Rehabilitation Centre is implementing rehabilitation treatments and providing vocational training to more than 150 children ranging from 6 to 16 years.

Upon learning about Esoffflow's active policy in employing disabled people, Mr. De expressed his appreciation of the company's commitment to promote employment of people with disabilities.
