

## Staff joins company summer trip

From July 24 to July 26, the annual Esoftflow summer trip was organized for all employees. The group went to Cat Ba Island located in the beautiful Halong Bay, a UNESCO World Heritage site and Vietnam's most famous natural attraction. The summer trip combines relaxation with team building exercises, and this year, an HIV/AIDS awareness raising event was integrated into the activities. As per company policy, Esoftflow organizes an HIV/AIDS awareness raising seminar for all staff once a year.
